They shall ensure that the information is readily available on the spot at the moment of audit and, if so requested, the data be handed over in an appropriate form.

On the basis of the findings made during the financial audit, a provisional report shall be drawn up. It shall be sent by the EC or its authorised representative to the Subgrantee concerned, which may make observations thereon within one month of receiving it. The EC may decide not to take into account observations conveyed or documents sent after that deadline. The final report shall be sent to the Subgrantee concerned within two months of expiry of the aforesaid deadline.

On the basis of the conclusions of the audit, the EC shall take all appropriate measures which it considers necessary, including the issuing of recovery orders regarding all or part of the payments made by it and the application of any applicable sanction.

The European Court of Auditors shall have the same rights as the EC, notably right of access, for the purpose of checks and audits, without prejudice to its own rules. The Subgrantees funded within the FUTURAL project will be the unique owners of the technologies created within the framework of their sub-granted projects. Parts of their works will be requested to be public for FUTURAL dissemination purposes.

Article 17 – Do No Significant Harm

Subgrantees must always respect the "Do No Significant Harm Principle". The Commission Communication on the European Green Deal introduced the green oath to "do no harm". The 'Do No Significant Harm' (DNSH) principle has been further specified in the EU Regulation on the establishment of a framework to facilitate sustainable investments, commonly defined as the 'EU Taxonomy Regulation'. Six environmental objectives are listed in Article 913 of the EU Taxonomy and Article 17 specifies what can constitute a 'significant harm' for these objectives. Thus, the regulation provides that no measure should lead to significant harm to any of the six environmental objectives within the meaning of Article 17 of the Taxonomy Regulation.
